OUR MISSION

Vibrant Membership.

We offer opportunities for our members to grow and develop their skills through assorted media demonstrations, training, and workshops; and provide venues to share their experience, celebrate their talent and showcase their talent in art exhibitions throughout Central Florida.

Community Partnership.

We develop relationships with local businesses and other resources to access funding, create awareness and contribute to the expansion of our organization, making a positive difference in the lives of emerging and professional artists, as well as those of our patrons.

Pay it forward.

Not only do we teach classes and donate works of art to a variety of community organizations, but we offer associate membership, mentorship and scholarships to high school and college students who want to pursue their passion in art.
